## GENERAL VILLA'S ARMY CAPTURES ZACATECAS

Most Important Victory Yet Achieved by the Constitutionalist Army—Less Than 5,000 of the Federal Army of 14,000 Men Have Escaped.

By Telegraph to The Freeman.

Zacatecas, State of Zacatecas,

Mexico, June 24.—(Delayed by censor.)—General Francisco Villa has

achieved the greatest victory of his

remarkable career by the capture of

this city after five days of bloody

fighting, which resulted in the practical

annihilation of one of the largest

and best equipped armies ever

gathered in Mexico by the Federals.

Fully 2,000 Federals were killed

in the fighting and as many wounded.

Between 5,000 and 6,000 Federals

were taken prisoners by the

Constitutionalists. Practically all

of these will be enrolled in General

Villa's ranks. Of General Barron's

army of 14,000 men less than 5,000

escaped.

General Barron also lost half his

artillery, 6,000 Mauser rifles, great

quantities of ammunition for rifles

and cannon, 18 locomotives and 300

freight cars loaded with stores of

all kinds, most of which had been

looted from establishments of local

merchants.

The fact that these freight cars

were found loaded was evidence that

the Federals had evacuation in con-

templation before the battle began.

All the banks in the city had been

stripped of money and other valu-

ables by the Federals before they

fled and many of the public build-

ings had been blown up with dynamite.

The principal streets had been

mined and the explosions of these

mines cost Villa's men heavy

loss of life.

The city presented a scene of

desolation and havoc when the tri-

umphant rebels took possession.

The loss of the attacking army

while insignificant when compared

with the losses sustained by the

defenders, was nevertheless very

heavy. General Villa places the

number of rebels killed at 500 to

600 with possibly 800 wounded.

This is a conservative estimate.

Among the wounded are General

Maclovio Herrera, General Trinidad

Rodriguez and General Ortega, three

of Villa's ablest officers and most

gallant fighters. All three will

probably die. Their loss will be

keenly felt by the Constitutionalists

and Villa would lose some of his

chief mainstays.

The Federal army defending

Zacatecas numbered fully 14,000

men, well armed and supplied with

food and ammunition. They occu-

ped a position believed by military

experts to be practically impreg-

nable.

That General Barron, the Federal

commander in chief, felt called up-

on to abandon such a position under

such circumstances, was considered

indicative of his lack of confidence

in the loyalty of the officers and men

under his command. Those who

escaped fled on foot or on horseback

in the direction of Aguas Calientes.

General Villa in his attack upon

Zacatecas left nothing to chance.

While it was true that his army out-

numbered the Federals two to one,

the advantage of position was so

strongly in favor of the government

forces that some of the rebel gen-

erals were dismayed by the task set

for them. But not Villa. With

characteristic optimism and enthusi-

asm he inspired his men and his own

courage upon the firing line heart-

ened the troops when the Federal

fire was hottest.

Zacatecas is surrounded by high

hills upon which the Federals had

established earthworks. Heavy can-

non were mounted upon these forti-

fications and the trenches were filled

with ammunition.

The only approach to this mining

city, in the largest and richest sil-

ver and gold district, was through

a deep canyon.

Federal sharpshooters were

ambuscaded alongside this road and

cannon had been planned to sweep

the route vigorously before sending

the men into the death trap and the

noise of conflict while the heavy artil-

lery of

General Angeles, Villa's closest adviser and chief of artillery, is a graduate of Mexico's West Point and a highly educated soldier and diplomat. Many of General Villa's public manifestos are attributed to him. He is very likely to be the next provisional president of Mexico, with the consent of the United States. It is reported that both General Villa and President Wilson favor him for provisional president.

## BOY DROWNED AT KINGSTON POINT

Joseph Handler, 14 years old, was drowned shortly after 4 o'clock off Kingston Point on Wednesday afternoon while swimming with two other boys and the body was not recovered until about 6 o'clock that afternoon. Joseph made his home with his brother, Abram Handler, 52 East Strand. That afternoon he had asked his brother if he could go swimming in the river and as the boy could not swim his brother forbade him going.

Joseph went to Kingston Point, with two other boys who live near Vincent Van Bramer and Irving Herick. The boys determined to go in near the sunken canal boat near the ice house at the Point and Vincent and Irving stripped and jumped in. Joseph, as he could not swim, was content to wade around in the water which was up to his knees and did not know that the river bottom sloped steeply at the point where he was wading and he suddenly slipped into deep water. Irving Herick heard his cry and managed to secure a grip on the drowning boy but he did not have the needed strength to pull him to shore.

The body was recovered by William Pells and Matthew Delaney, the well known fishermen, and Drs. Basten and Robinson hurried to the scene. The body, however, had been under water too long for medical aid. Coroner Kelly issued a death certificate. The remains were buried in Montpelier Cemetery this afternoon.

Willow, June 25.—Mrs. R. Wilbur and daughter, Leola, spent the week end with Mr. Elmer Wilbur in this place.

Mrs. Hazel Keller is ill with the measles.

Wild strawberries seem to be very plentiful.

Miss Elizabeth DeVall, who has been spending some time at Shokan, has returned to her home.

## H. B. CLAFLIN COMPANY GOES INTO BANKRUPTCY

Liabilities Will Exceed \$30,000,000 and Assets Are Estimated at \$44,000,000—Banks Throughout the Country Are Affected by the Proceeding.

By Telegraph to The Freeman.

New York, June 25.—Federal

Judge Hand today appointed Joseph

B. Martindale, president of the

Chemical National Bank, and Fred-

erick A. Juilliard, receivers for the

H. B. Claflin Company, one of the

largest dry goods concerns in the

United States, and the Defender

Manufacturing Company.

The petition against the Claflin

Company was filed by John C. Eames

of New York, on behalf of himself

and other creditors.

Eames claimed that the Claflin

Company owes him \$3,668 on a loan

and that it has several million dol-

lars of indebtedness.

The petition against the Defender

Company was filed by W. O. Dell

of New Jersey, a note creditor for

\$5,200.

Judge Hand fixed the receivers' bond for the Claflin Company at

\$500,000 and \$50,000 for the De-

fender Company.

An involuntary petition in bank-

ruptcy was also filed against the

Claflin Company by John Muller,

William Worth and Alfred E. Ber-

gerne, creditors claiming respectively

\$231, \$3,151 and \$28,750.

The petitioning creditors were

represented by Attorneys Gregg and

McGovern. The Claflin Company

and the Defender Company were

represented by Attorneys Odell,

Eames and Welling.

The failure of the Claflin Com-

pany is one of the greatest that has

ever started the commercial life of

New York. It is reported in finan-

cial circles that the liabilities

amount to fully \$30,000,000.

It is estimated by those who are

close to the company that the liabil-

ities of the Claflin concern are

\$34,000,000 and the assets \$44,

000,000.

It is understood that there are

about 3,000 banks throughout the

country affected by the proceedings.

Twenty-five of the more important

banks are believed to be affected

also. The equity proceedings of

Judge Hand today affect

the United Dry Goods Company, ac-

cording to those in a position to

know.

A note holder's protective com-

mittee has been formed to look af-

ter their interests and represent

some of the banks affected. Presi-

dent Alexander of the National Bank

of Commerce of New York has

been made chairman of this com-

mittee.

The Claflin Company is a \$9,000,

000 corporation and controls 28

dry goods firms in the United States

in no way connected with the Uni-

ted Dry Goods Company.

The Claflin Company was incor-

porated in 1890 and this incorpora-

tion was followed by the organiza-

tion in 1900 of the Associated Mer-

chants Company with \$20,000,000

of authorized capital which in turn

was followed by the organization in

1906 of the United Dry Goods Com-

pany with \$51,000,000 of author-

ized capital.

The rebels centered their cannon fire and as soon as a Federal battery was silenced, Villa ordered a charge and his men swept forward with triumphant yells and captured the guns. Many cannons which had been used against the rebels early in the fighting were later turned upon the Federals.

Villa's hospital service was tested to its capacity and the army doctors and nurses rose to the occasion nobly. Owing to the roughness of the country it was decided not to bring all the hospital cars to the suburbs of the city, a number of them being left nine miles in the rear. Hundreds of stretchers were carried to the battle field however, and the wounded were picked up as they fell and carried to the hospital cars for treatment. Many Federals as well as rebels were treated by the Constitutionalist hospital attendants.

The only important points in northern Mexico remaining in Federal hands are Aguas Calientes, Queretaro, San Luis Potosi and Guadaluajara.

### ST. JOSEPH'S SCHOOL.

Largest Graduating Class in History of the School Receives Diplomas.

The graduating exercises of St. Joseph's school were repeated last night before an exceptionally large crowd. The program, consisting of songs, operettas, tableaux, scenes from Shakespeare, and orations, were greeted with long applause by the enthusiastic audience.

The Rev. John H. Briody, pastor of the church, presided and presented the graduates with their diplomas and gave to each one a pretty gold medal. Each of the class was applauded as they came forward to receive them.

Miss Catherine M. Gleason, the valedictorian of the class, delivered her address in a very pleasing manner. Father Briody closed the exercises by delivering his farewell address to the class. He reminded them of the seriousness of life and that their graduation from St. Joseph's was but one of the steps in their education, but that they should and would in after years look back at their first school days with fond recollections.

The class of 1914 is the largest in the history of the school, numbering fourteen.

It is estimated by those who are close to the company that the liabilities of the Claflin concern are \$34,000,000 and the assets \$44,000,000.

It is understood that there are about 3,000 banks throughout the country affected by the proceedings. Twenty-five of the more important banks are believed to be affected. The equity proceedings before Judge Hand is now affecting the United Dry Goods Company, according to those in a position to know.

A note holder's protective committee has been formed to look after their interests and represent most of the banks affected. President Alexander of the National Bank of Commerce of New York has been made chairman of this committee.

The Claflin Company is a \$9,000,000 corporation and controls 28 dry goods firms in the United States. It is no way connected with the United Dry Goods Company.

The Claflin Company was incorporated in 1890 and this incorporation was followed by the organization in 1900 of the Associated Merchants Company with \$20,000,000 of authorized capital which in turn was followed by the organization in 1903 of the United Dry Goods Company with \$51,000,000 of authorized capital.

The larger companies were holding companies and included among their assets many of the Claflin interests.

One of the causes contributing to the suspension of the Claflin Company was the fact that the concern lost \$1,000,000 over-night through the tariff reduction. Another reason was that the concern for some time past had been operating by making only temporary loans, instead of long time loans, and that the different bankers decided to call in their loans the order hit the Claflin Company a terrific blow.

Some of the New York bankers, who were holding the Claflin paper, were said to have been willing to leave them uncalled but most of the Claflin loans had been made of the smaller so-called country banks and these insisted on a payment of notes upon maturity.

It was learned on the highest authority that the Associated Merchants and the United Dry Goods Companies were in no way involved in the suspension of the Claflin Company. These concerns held only a comparatively small part of the Claflin stock and their loss will be so small that they could continue paying dividends on their own stock even if their holdings in the Claflin Company were a dead loss.

It was stated today that a coterie of bankers have decided to aid another store which is controlled by the Associated Merchants and United Dry Goods Companies. This store has considerable paper in circulation, but its assets can more than take care of its every obligation. However, the store has found it a bit hard of late to get loans of the amount desired, owing to the conservative rule among bankers.

The involuntary bankruptcy suit was made the subject of this statement by the firm of Gregg and McGovern, who are representing the three creditors.

"Last night we learned that Claflin and Company had intentions of filing an equity suit, and that they had no way of paying their debts, but not alleging insolvency."

"We filed an ordinary petition in bankruptcy alleging insolvency, which is returnable July 2. We filed this petition in behalf of three creditors, who are John Muller, William Worth and Alfred Berner."

They allege they deposited upwards of \$30,000 to \$40,000 and refer also to merchandise supplied."

The failure of the firm was expected. It was forecasted yesterday when the stock of the United Dry Goods Company took a rapid drop in the stock exchange. Following this outside evidence of trouble it became known that John Claflin, had of the great house, had been in constant conference with his lawyers and representatives of the banks with which the house did business. Mr. Claflin is the head of all the companies interlocked in the dry goods business.

He gave out the following statement today, following the failure:

"The unprecedented shifting of trade centers in New York has caused great loss to many interests. In the case of the H. B. Claflin Company the up-town movement of business has seriously curtailed our wholesale profits and has compelled us to rely mainly on the profits from financing retail stores throughout the country. This rapidly expanding business has occasioned large capital requirements which we have not been able to meet. A receivership has, therefore, become necessary, pending a readjustment of the affairs of the company. A plan of reorganization for the H. B. Claflin Company soon will be presented, which we hope will prove acceptable to both creditors and stockholders."

"The Associated Merchants Company and the United Dry Goods Companies are not themselves borrowers of money. They are in an exceedingly strong financial position and the success of their retail stores is assured."

John Claflin, head of the Claflin chain of stores, was born in Brooklyn July 24, 1850. He is the son of the late H. R. Claflin who was the pioneer dry goods man of the country. John Claflin took his A. B. degree at the college of the City of New York. Then he travelled in the West and took up the work of America from the Pacific coast at the Atlantic Ocean at the equator. He organized the H. B. Claflin Company in 1889 to take up the work of the H. B. Claflin and Company and since that time has been executive head of the various enterprises linked with the older company as well as the moving spirit in many charitable, public spirited ventures.

H. B. Claflin began his career as a clerk in his father's store in Millford, Mass. With his brother and brother-in-law, H. B. Claflin succeeded to his father's business in 1823. They opened a branch in Worcester, Mass., in 1832 and after eleven years experience in New England the New York house was founded. From 1843 when the firm of H. B. Claflin and Company was founded, it held the most commanding position in the dry goods world. Within 20 years after the inauguration of the New York house it was the undisputed master of its class, a position that it continued to hold.

John C. Eames who filed the suit that made it the basis for the appointment of receivers has for years been one of the chief figures in the Claflin firm.

### VAN BUREN FILES DENIAL.

No Agreement With Others to Overcharge City, He Says.

Augustus H. Van Buren, who, with Everett Fowler and John J. Linson, is being sued by the city of New York for \$100,000 which they were accused of having overcharged the city in condemning land for the new aqueduct, filed his answer Wednesday. He denied that he had any agreement with the other defendants to make unfair charges and to divide the money thus gained with them. He also denied that he had any part in the procuring from the city of \$350,000 or any other amount which, it was said, represented the total amount of the bills of the three defendants.

Mr. Van Buren admitted that he charged \$50 a day for his services in the trial of claims, but said that this rate of compensation was fixed by the corporation counsel, that the bills were approved by the board of water supply and were audited by the controller. He denied that he made wrongful charges in the matter of disbursements and said that all the money he received from the city he was entitled to. He asked for a bill of particulars.

NOW IN PROGRESS AT

**FORMAN'S NEW UP-TO-DATE STORE!**

316 Wall St., Formerly Occupied by U. S. Grant

Our stirring Clean-Up Sale, which began last Friday morning, is the greatest event of its kind launched in Kingston this season. Even during the present dull period, while other merchants are complaining of business depression, our volume of sales is remarkable, to say the least.

All lines of women's ready-to-wear garments, all this season's products, including

**Coats, Suits, Dresses, Waists, &c.**

are represented in this sale. Every striking new model, in every desirable material, is involved in our offerings.

Prices have been crushed beyond recognition. In fact most of the garments are marked at prices less than the actual cost of the materials.

This is an unprecedentedly fine opportunity, at a most seasonable time, to secure Summer garments at a fraction of their original cost.

Our determination is to make a clean sweep of all Summer wearables. First cost and profits are utterly disregarded. The lines here assembled are sufficiently large to withstand several days of brisk buying and selling, but, of course, those who come at once are assured of choicest variety.

A reinforced corps of salespeople is here to see that you are promptly and courteously served. Watch our windows daily for sterling bargains.

KINGSTON, N. Y., JUNE 25, 1914.

Congress seems to have made a good business stroke in accepting the offer of Greece to buy for \$12,000,000 our battle ships Idaho and Mississippi. Their keels were laid in 1904, so that they have been in use less than ten years, yet they are already so far out of the date as to be useless in our navy, although they are equal to the task of fighting Turkey's antiquated hulks. The fact that the life of a war vessel is only a few years is one of the considerations which make it difficult to induce Congress to make large appropriations for construction. Moreover, if the Italian discoverer of "F-rays" is not a faker, it will be possible presently to blow up stores of ammunition at long range, so that all battleships will have to go to the junk heap. Then, if men still want to fight, they will have to go back to swords and bows and arrows. This will bring the old days of romance back again. Wars will furnish more opportunities for heroes and there will be fewer fatalities.

Any one who follows closely the mediation proceedings at Niagara Falls is apt to wonder whether he will not wake up soon and find that he has merely been having the kind of dreams which follow intemperance indulgence in mince pie. It will be remembered that some Mexican soldiers annoyed Assistant Paymaster Copp of the United States despatch boat Dolphin. The United States demanded that Huerta make reparation by firing a salute to the American flag. The dictator said he wouldn't do it, whereupon the United States forces captured Vera Cruz, losing a score or so of men in the action. This looked to some people to be war, but Messrs. Wilson and Bryan assured us that it was not so, and representatives of the big South American governments started in to arbitrate the matter. After weeks of work it has been agreed by both sides that "the United States of America will not in any form whatsoever claim a war indemnity or other international satisfaction." Obviously, that means that no salute will be given. Huerta has "made monkeys" of our President and Secretary of State. There was never a more complete back-down. Under the protocol signed, the United States agrees to recognize any provisional government which the Mexicans may agree to set up. The question how soon our forces have to leave Vera Cruz is left unsettled, and under the circumstances is of little consequence. As Colonel Roosevelt says, our administration is the joke of the world, but he fails to realize the fact that but for his political treachery it would not have gotten into power.

All of us have known men who would quietly and soberly attend to their duties for months and even years at a time, and then suddenly indulge in a prolonged drunken debauch. After recovering, they settle down as before. Their temperaments seem to require this sort of thing. Now, suppose that at the "psychological moment" these individuals were prevented in some way from following their inclinations, what would happen to them? Some light is thrown on the question by the Medical Times, which has printed an editorial article on what it calls "spree equivalents." This authority tells us that growing "psychic unrest" can be relieved only by some sort of nervous explosion. When an epileptic goes just so far, he has to have a fit, and that is all there is to it. When intermittent drunkards have abstained just so long, they naturally seek relief in a spree. Now, there are other victims of psychic unrest who cannot have fits and who hate the taste of liquor so much that they cannot bring themselves to get drunk. The Medical Times declares that their "psychosis is assuaged by dabbings and tinkering with various social conditions, after which the victims resume the even tenor of their way." The article indicates that the symptoms of various "reformers," such as suffragists, apostles of publicity regarding sexual matters, Progressive politicians, anti-trust fanatics and the like have a pathological basis. Sometimes they work off their mental disturbance. Sometimes they are induced to become intoxicated and forget it. Sometimes, like Inez Milholland Boissevain, they get married and

then cool off. We should bear patiently with public disturbers. They can't help their actions.

George W. Perkins is going to remain in the Progressive party as long as the Colonel does, says the latter, Amos Pinchot notwithstanding. The difference between these antagonists, stripped of unnecessary words, is that Pinchot believes in splitting up the big corporations, while Perkins believes in encouraging them to grow to dimensions as yet undreamed of, only providing that he and Roosevelt shall supervise them and determine which are good and which bad. Opinions so diametrically opposite cannot go into the same party platform, and there seems to be no choice for Amos but to fade away.

## THE BOY AND THE MAN.

(By Our Woman Editor.)

A week or so ago a cable dispatch came from Madrid announcing the fact that the Italian Crown Prince, Umberto, who is only 10 years old, had seen his bull fight. But the spectacle, which was expected to delight the future sovereign of Italy, only frightened and horrified him, and he promptly fainted at the sight of blood.

The tutor of the Crown Prince, it seems, is required to spend part of his time in the naval service, and when he was ordered to make a several days' cruise his royal pupil accompanied him, that he might not lose any time in his studies.

The lad proved a hardy seaman, and the tutor, presuming that his nerve would stand the test of the prize ring, slipped ashore with his distinguished young charge and gave him his first glimpse of sport as it goes on in the arena.

But the performance had scarcely begun when the boy showed signs that something was wrong, and before ever he saw the bull fight at its height he was carried back to the warship, fearful and crying.

Nobody knows when, if ever, he will look upon an arena again when a bull fight is in progress; and certain it is that if he goes it will be because somebody urges him along against his own fancy.

That is a matter for the future to determine; but the moment one read of the boy, carried out of the arena, in mingled revolt and fear, thoughts hurried back to that young princeling in Russia, who, hard step by step, developed into the grim Ivan, "The Terrible."

As the boy prince, his tears fell in bright as he saw one prince out of pieces in the council chamber, another trampled to death.

As the boy, his hand was pushed to force him to throw household pots from the very tops of towers, and when he shrank from pricking wild animals in their cages, the lance was put in his unwilling hand, and the lesson in cruelty went on.

As the boy, he was forced to witness executions by sword or axe, and from the torture of animals, the torture of men became easy.

And as the man, nothing was too cruel for his mind and his hand to essay, and he soon earned the significant title of Ivan, "The Terrible."

Would it, possibly, have made any difference had the boy been encouraged to play with pets, to care for and love them?

Would he have been any less brutal, if, at the first sign of shrinking from violence, he had been guarded from witnessing scenes of the most demoralizing brutality rather than spurred on to be the chief actor?

And if the childhood of the unhappy princeling had been passed away from the awful barbarities daily forced upon him, might not the pages of history be spared the horrible chronicles of Ivan, "The Terrible?"

Again, nobody knows.

But if all the princelings and all the little paupers in all the lands on the earth might be left to follow the best of their impulses, with the help of kindly suggestions, and the inspiration of kindly deeds, perhaps our eyes would often be gladdened by evidences of love of humanity and consideration for the whole animal world, rather than shocked now and then by recitals of bull fights and the like that seem to have been carried over from rougher years. The tastes and the ambitions of the boy are not the tastes and the ambitions of the man, but it is a pity for any boy to have to learn to enjoy a sport that is written all over with brutality.

Some day bull fights and other degrading exhibitions of their kind will step back into the past, and perhaps it may be at the behest of a Crown Prince who cried as a boy at the revolting spectacle and who refused to become hardened as a man.

And surely his protesting tears carry a lesson for all to read who will.

## LITTLE LAUGHS.

"He's a self made man." "I know. He surely made a mistake in not consulting an expert."—Detroit Free Press.

Government Investigator—"What made you burn your books?" Railroad President—"The motto of our road is, 'Safety First.'"—Life.

She—"If you insist upon knowing, there are two reasons why I can't marry you." He—"And they are?" She—"Yourself and another man."—Judge.

Bix—"Wasn't it Admiral Porter who said: 'Take no quarter from the enemy'?" Dix—"Dunno! If it was, he's the only porter that ever said such a thing."—Boston Transcript.

"Do you believe that men are descended from monkey ancestors?" "I don't believe that you are; but your descendants may be able to prove that they are."—Houston Post.

An Empire Day Essay—"Dear Teacher: On Empire day we had a holiday. I had a flag on Friday. On Friday I was very happy, was you Teacher when we had a holiday."—Punch.

"What do you think of the idea of taxing jewelry?" "It may do some good. I know a man who wears a wrist watch. I hope the government will walk right up and take it away from him."—Washington Star.

"British scientists have discovered a golf bug that destroys the grass on the links." "Pshaw, they're nothing new! We had a lot of trouble with them at our golf club, but we got out of the difficulty by posting signs saying: 'Please replace turf cuts.'"—Buffalo Express.

## Her Only Justification.

Senator Root's capture of the \$40,000 Nobel peace prize recalls the Rooseveltian dictum that Root is the ablest man in America.

"It recalls also many stories of Mr. Root's brilliance at the bar. One of these stories is about a woman who sued a railroad company for \$25,000 for the loss of her thumb, which had been destroyed by a rear-end collision."

Mr. Root—a young man then—opened the defense with the words: "Twenty-five thousand dollars for the loss of a thumb. Well, gentlemen of the jury, the only justification I can see for so exorbitant a claim is that it was the thumb the lady kept her husband under."—Washington Post.

## One on the King.

The Bishop of London on one occasion when he went to Buckingham Palace told the king that he had passed Lord Salisbury in an ante-room, but the latter did not seem to know him. "Oh," said King Edward, "Lord Salisbury never recognizes anyone," and going to a bureau he took out a new portrait of himself and handed it to the bishop, saying: "What do you think of this?" "A very excellent likeness, sir," said the bishop. "When I showed it to Salisbury," said the king, "he looked hard at it and then said, 'Poor old Buller! I wonder if he's as stupid as he looks.'"—Argonaut.

## Politics at Home.

Little Millie's father and grandfather were Republicans, and as election drew near they spoke of their opponents with increasing warmth, never heeding Millie's attentive ears and wondering eyes. One night, however, as the little maid was preparing for bed, she whispered in a frightened voice: "Oh, mamma, I don't dare to go upstairs. I'm afraid there's a Democrat under the bed."—The Woman's Journal.

## Poor Man.

Said a well known humorist the other day:

"Man is an acquisitive animal, and socialism can't come 'till he loses his acquisitiveness. That will be never."

"The seven ages of man have been well tabulated by somebody or other on an acquisitive basis. Thus:

"First age: Sees the earth."

"Second age: 'Wants it.'"

"Third age: 'Hustles to get it.'"

"Fourth age: 'Decides to be satisfied with only about half of it.'"

"Fifth age: 'Becomes still more moderate.'"

"Sixth age: 'Not content to possess a six by two strip of it.'"

"Seventh age: 'Gets the strip.'"

—Washington Post.

## The Wrong Measure.

"Why are so many marriages disappointing?" said Miss Elsie de Wolfe at a dinner at the Colony Club in New York.

Well, most of them are disappointing because the average girl measures her sweet heart by the hero of her favorite novel, when she ought to measure him by her father and her brother."—New York Telegraph.

## Sons-in-Law.

"Where will Mrs. Dobs go now that both her daughters are married? To her son-in-law's house in Birmingham or to that of her son-in-law in Leeds?"

"One wants her in Birmingham and the other wishes she would go to Leeds."

"What dutiful sons-in-law!" "I beg your pardon. The one in Birmingham wants her in Leeds; the one in Leeds wants her in Birmingham."—Tit-Bits.

## TWENTY AND TEN YEARS AGO.

June 25, 1894.—Young Men's Catholic Literary Association gave "The Mountain Wolf" in Liscomb's opera house.

June 25, 1904.—Forepaugh & Sells Brothers circus showed in town. Levi P. Webber died at Rutland, Ill.

\$20,000 fire destroyed several buildings in the village of West Hurley.

## Bonds and Bonds.

Briggs—"I'm going to my brother's; I want to get rid of some bonds. Where are you off to?" Griggs—"To my divorce lawyers. I want to get rid of some bonds, too."

## Graduation Time

Graduation is an event worthy of some token of remembrance. Whether it is the grinning youngster passing from the primary to the grammar grades or the more serious-minded college senior, graduation means achievement and work well done. No time is more appropriate for a gift nor could one be surrounded by happier associations.

Our work is well done, too. Long ago we graduated and took our place as jewelers to meet your every want. At this season our stock is particularly rich in the things that are most suitable for commencement gifts. Rings, bracelets, pendants and chains for the girls; fobs, scarf pins and watches for the boys. The present need not be nor should it be an expensive one, but you should insist upon the finest quality, and that is what we can offer you.

## Clean Up Week

Philadelphia recently had a Clean Up Week and of its results the director in charge said: "We had twice as much advertising this year as last, and our clean-up campaign was just twice as effective. The success of the campaign is directly proportional to the amount of advertising we do."

"The only way to focus attention on our plan was to advertise. Without plenty of publicity the house-cleaning would have been spread over the whole year, and it would have been impossible to remove the rubbish in one week." He stated that the amount of dirt and rubbish removed, if piled in a city block, would tower 22 feet high.

## NEW HURLEY.

New Hurley, June 24.—Under the auspices of the Ladies' Aid, there will be given a musical recital at the church on Friday evening, June 26.

Children's Day was observed on Sunday morning by a program rendered by the children of both Sunday schools, the Plains and New Hurley. This is one of the Sundays of the year when the large church is comfortably filled, and none were disappointed for the entire program was well rendered. Eight little children were baptized that day by the pastor.

Mrs. Helen Berger is visiting friends at New Hurley. While her son, the Rev. A. L. G. Berger, was pastor of the church, Mrs. Berger was mistress of the manse.

The pupils of New Hurley school who took regents' examinations reflected credit upon their teacher, Miss Anna Heaney. The standings compared favorably with those who attended graded schools. Those ready for high school are Harry Lyons, Bessie Schoonmaker, Clare Anderson and Dorothy Dangremond.

John Gregg graduates from Walden high school and John Lyons from Wallkill high school this year.

Misses Helen, Dorothy and Bernice Dangremond are visiting friends at Flatbush.

Miss Cynthia Hendricks from Poughkeepsie is a guest of Mrs. J. L. Woolsey.

Silence in Bowling Alley.  
A noiseless bowling alley is a French novelty, one having been invented in Paris in which the clash of falling balls is silenced.

Three Kinds.  
There are three kinds of men who don't know anything about women. They are old men, young men and middle-aged men.—Brooklyn Eagle.

## Woman's World

Leader of the New Woman's Educational Movement in the Orient.

DR. MARY MILLS PATRICK.

The most remarkable woman's college in the world is Constantinople college, where women from all parts of the orient are sent to be grounded in the arts and sciences of the occident. Forty years ago the small school which was the beginning of the college was established in Constantinople. It was a missionary enterprise, and in those days the orient looked with suspicion on the occident and with disapproval on anything like the higher education of women. All this is changed, however. The sultan has set the seal of his approval on the school and recommends the education of Turkish young women, while from Armenia, the Balkan states, Greece and the farther orient girls of the best families are sent to enjoy the educational advantages of an institution which is as well equipped as the average American woman's college. Many rich Americans have contributed generously for improvements, the total cost of the college buildings and equipment being about three-quarters of a million dollars. Recently five splendid new buildings were dedicated.

The head of this college is Dr. Mary Mills Patrick, an American, to whom are due the high standard and the success of the institution. She was born at Canterbury, N. H. From New England she removed to the state of Iowa with her parents, residing during her school years at Lyons and there being graduated from Lyons college.

Soon after her graduation she went to Turkey under appointment received from the American board of foreign missions and first spent several years in the eastern part of Asia Minor, where her work was chiefly among the Armenian people.

Here she acquired a knowledge of the Armenian language that marked her from the beginning of her career as gifted especially in linguistic faculty. Besides the Armenian, she speaks fluently Turkish, Greek, Bulgarian, French and German.

After several years' residence in the Armenian provinces Miss Patrick was called to the American school for girls at Constantinople, to which institution she has devoted more than thirty years of untiring effort, establishing there a standard for the education of girls that has changed the entire attitude of the various races of the near east and the ideas of the Ottoman government as well on this most important subject. From a high school, established in 1871, this American institution for the higher education of young women has grown under the able direction of Dr. Patrick into the strong and well equipped college, the only college for girls in the Ottoman empire. Seeing the need of such a college in Constantinople, which draws to itself people from all parts of the entire Levant, even influencing the thought and life of Persia and Arabia, Egypt and southern Russia, as well as the whole of the southeast of Europe, Miss Patrick early determined to work for the establishment of a permanent educational work of high standard.

Spending all her vacations in study and research work, taking courses successively at the universities of Heidelberg, Zurich, Leipzig, Berlin and Berne, she finally took the doctor's degree from the last named institution, her major work being in the field of Greek philosophy. She has done notable work in psychology also and in ethics, as well as in Greek literature and history. In 1890 the school over which she had for nearly ten years presided was incorporated into a college, and it is due to the splendid efforts of Dr. Patrick that this institution is now established in its beautiful new home on the European shores of the Bosphorus, the center of intellectual life for the women of the near east.

The Cane Umbrella.  
Perhaps in the course of your shopping or walking tour you have noticed a smart woman with a long cane. And then perhaps you have been surprised when rain began to fall to see the same smart woman open the top of her cane and draw out an umbrella. As if it were not enough for women to carry canes without carrying these surprising long staffs that turn out to be umbrellas and canes combined!

The Incredible costumes and fashions have brought about the carrying of canes by women. And the really smart woman who is in search of something new chooses the umbrella sheathed in a canelike case of wood.

Somewhat Personal Humor.  
He paused to look in a window, and, feeling warm, raised his hat and brushed his head. It was a bald head. The humor of the street urchin cropped out at the act. A bootblack, who stood beside him, touched him on the arm: "Shine, sir?" he asked.

"Where Quality is Higher Than Price!"

## Duty.

The sphere of duty is infinite. It exists in every station of life. We have it not in our choice to be rich or poor, to be happy or unhappy; but it becomes us to do the duty that everywhere surrounds us. Obedience to duty, at all costs and risks, is the very essence of the highest civilized life. Great deeds must be worked for, if we are to be great, now as in the past.—Selected.

## It Does.

Once more, lest you forget; the "city beautiful" movement offers a broad field of public service to every good citizen.—Birmingham Ledger.

## Uncanny Wisdom.

Some men are so wise that it seems as though they must have been born at a much earlier age than the rest of us.

## In the Same Boat.

De Broke—"So the tailor called again with my bill? Did you say I was out?" His Man—"Yes, sir; and I told him I thought he was, too."

## Caustic Papa.

"He looks like a fool!" "But, papa, he asked me to marry him." "He has? Well, don't ever tell me I can't size up people."—Houston Post.

## To Pick Up Glass.

Instead of picking up pieces of broken glass, wet a woolen cloth, lay on the floor over the fragments and pat lightly. The tiny particles will stick to the cloth, which may be burned.

## Query.

"The pen is mightier than the sword." "Then can the fellow with the fountain pen be said to be carrying concealed weapons?"

## Quick Thinker.

"But I've heard that you proposed to three other girls this month." "I—er—er—was merely rehearsing for my proposal to you."

## Strange Woman.

"Was it a quiet wedding?" "Decidedly! Both the bride and the groom were so scared they could hardly speak above a whisper."

## NEW HURLEY.

New Hurley, June 24.—Under the auspices of the Ladies' Aid, there will be given a musical recital at the church on Friday evening, June 26.

Children's Day was observed on Sunday morning by a program rendered by the children of both Sunday schools, the Plains and New Hurley.

This is one of the Sundays of the year when the large church is comfortably filled, and none were disappointed for the entire program was well rendered. Eight little children were baptized that day by the pastor.

Mrs. Helen Berger is visiting friends at New Hurley. While her son, the Rev. A. L. G. Berger, was pastor of the church, Mrs. Berger was mistress of the manse.

The pupils of New Hurley school who took regents' examinations reflected credit upon their teacher, Miss Anna Heaney. The standings compared favorably with those who attended graded schools. Those ready for high school are Harry Lyons, Bessie Schoonmaker, Clare Anderson and Dorothy Dangremond.

John Gregg graduates from Walden high school and John Lyons from Wallkill high school this year.

Misses Helen, Dorothy and Bernice Dangremond are visiting friends at Flatbush.

Miss Cynthia Hendricks from Poughkeepsie is a guest of Mrs. J. L. Woolsey.

Silence in Bowling Alley.  
A noiseless bowling alley is a French novelty, one having been invented in Paris in which the clash of falling balls is silenced.

Three Kinds.  
There are three kinds of men who don't know anything about women. They are old men, young men and middle-aged men.—Brooklyn Eagle.

## Woman's World

Leader of the New Woman's Educational Movement in the Orient.

DR. MARY MILLS PATRICK.

The most remarkable woman's college in the world is Constantinople college, where women from all parts of the orient are sent to be grounded in the arts and sciences of the occident. Forty years ago the small school which was the beginning of the college was established in Constantinople. It was a missionary enterprise, and in those days the orient looked with suspicion on the occident and with disapproval on anything like the higher education of women. All this is changed, however. The sultan has set the seal of his approval on the school and recommends the education of Turkish young women, while from Armenia, the Balkan states, Greece and the farther orient girls of the best families are sent to enjoy the educational advantages of an institution which is as well equipped as the average American woman's college. Many rich Americans have contributed generously for improvements, the total cost of the college buildings and equipment being about three-quarters of a million dollars. Recently five splendid new buildings were dedicated.

The head of this college is Dr. Mary Mills Patrick, an American, to whom are due the high standard and the success of the institution. She was born at Canterbury, N. H. From New England she removed to the state of Iowa with her parents, residing during her school years at Lyons and there being graduated from Lyons college.

Soon after her graduation she went to Turkey under appointment received from the American board of foreign missions and first spent several years in the western part of Asia Minor, where her work was chiefly among the Armenian people.

Here she acquired a knowledge of the Armenian language that marked her from the beginning of her career as gifted especially in linguistic faculty. Besides the Armenian, she speaks fluently Turkish, Greek, Bulgarian, French and German.

After several years' residence in the Armenian provinces Miss Patrick was called to the American school for girls at Constantinople, to which institution she has devoted more than thirty years of untiring effort, establishing there a standard for the education of girls that has changed the entire attitude of the various races of the near east and the ideas of the Ottoman government as well on this most important subject. From a high school, established in 1871, this American institution for the higher education of young women has grown under the able direction of Dr. Patrick into the strong and well equipped college, the only college for girls in the Ottoman empire.

Seeing the need of such a college in Constantinople, which draws to itself people from all parts of the entire Levant, even influencing the thought and life of Persia and Arabia, Egypt and southern Russia, as well as the whole of the southeast of Europe, Miss Patrick early determined to work for the establishment of a permanent educational work of high standard. Spending all her vacations in study and research work, taking courses successively at the universities of Heidelberg, Zurich, Leipzig, Berlin and Berne, she finally took the doctor's degree from the last named institution, her major work being in the field of Greek philosophy. She has done notable work in psychology also and in ethics, as well as in Greek literature and history. In 1890 the school over which she had for nearly ten years presided was incorporated into a college, and it is due to the splendid efforts of Dr. Patrick that this institution is now established in its beautiful new home on the European shores of the Bosphorus, the center of intellectual life for the women of the near east.

The Cane Umbrella.  
Perhaps in the course of your shopping or walking tour you have noticed a smart woman with a long cane. And then perhaps you have been surprised when rain began to fall to see the same smart woman open the top of her cane and draw out an umbrella. As if it were not enough for women to carry canes without carrying these surprising long staffs that turn out to be umbrellas and canes combined!

The Incredible costumes and fashions have brought about the carrying of canes by women. And the really smart woman who is in search of something new chooses the umbrella sheathed in a canelike case of wood.

Somewhat Personal Humor.  
He paused to look in a window, and, feeling warm, raised his hat and brushed his head. It was a bald head. The humor of the street urchin cropped out at the act. A bootblack, who stood beside him, touched him on the arm: "Shine, sir!" he asked.

Practical Fruit Growing and  
Canning Investment

A close corporation of New York business men whose character and standing will be appreciated on acquaintance, have successfully established a 200 ACRE FRUIT FARM AND CANNING PLANT near Saugerties—selling products DIRECT TO CONSUMERS AND RETAIL STORES in New York City.

The canning plant was put into operation last year and met with prompt success. THIS SEASON'S OUTPUT HAS ALREADY BEEN SOLD IN ADVANCE and there is every indication that the business will grow to large proportions. It is therefore deemed advisable to purchase and plant an adjoining farm and to increase the size of the plant, and to this end the capital has been increased \$20,000. A portion of this increase has been subscribed by the present members. For business reasons it is desired to have a number of local people of standing interested in the company and the balance is therefore offered to Ulster County growers and business men at the original price or investment cost per acre, the same as paid by present members, including officers and directors, when the project was started two years ago.

The fruit farm and canning plant are owned and operated as a whole, ownership being represented by shares of stock apportioned in blocks equivalent to 5, 10 and 20 acre interests.

Cost of each 5-acre interest, including planting and care, also pro rata interest in the canning plant, \$1,280, payable one-third cash, balance quarterly or semi-annually covering a period of two years.

The investment in no way resembles what is ordinarily known as an orchard-planted-and-cared-for proposition. We are fruit and vegetable growers, shippers and canners—not promoters. The Company has no land for sale.

Over 12,000 apple and pear trees were planted two years ago and are now under scientific horticultural care. 10 acres of currants and 3 acres of strawberries are interplanted between the rows of young trees, and about 70 acres of tomatoes and sweet corn have been put out this year to fill contracts for canned goods.

When the main orchard comes into bearing our fruit will be marketed, attractively packed, direct to retail dealers and large consumers, THROUGH OUR OWN AGENT IN NEW YORK, independent of commission men. In the meantime the Canning Plant will pay better than ordinary interest on the entire investment. THIS YEAR NET EARNINGS SHOULD EXCEED 12% AND SHOULD INCREASE SUBSTANTIALLY EACH YEAR.

## Practical Fruit Growing and Canning Investment

A close corporation of New York business men whose character and standing will be appreciated on acquaintance, have successfully established a 200 ACRE FRUIT FARM AND CANNING PLANT near Saugerties—selling products DIRECT TO CONSUMERS AND RETAIL STORES in New York City.

The canning plant was put into operation last year and met with prompt success. THIS SEASON'S OUTPUT HAS ALREADY BEEN SOLD IN ADVANCE and there is every indication that the business will grow to large proportions. It is therefore deemed advisable to purchase and plant an adjoining farm and to increase the size of the plant, and to this end the capital has been increased \$20,000. A portion of this increase has been subscribed by the present members. For business reasons it is desired to have a number of local people of standing interested in the company and the balance is therefore offered to Ulster County growers and business men at the original price or investment cost per acre, the same as paid by present members, including officers and directors, when the project was started two years ago.

The fruit farm and canning plant are owned and operated as a whole, ownership being represented by shares of stock apportioned in blocks equivalent to 5, 10 and 20 acre interests.

Cost of each 5-acre interest, including planting and care, also pro rata interest in the canning plant, \$1,280, payable one-third cash, balance quarterly or semi-annually covering a period of two years.

The investment in no way resembles what is ordinarily known as an orchard-planted-and-cared-for proposition. We are fruit and vegetable growers, shippers and canners—not promoters. The Company has no land for sale.

Over 12,000 apple and pear trees were planted two years ago and are now under scientific horticultural care. 10 acres of currants and 3 acres of strawberries are interplanted between the rows of young trees, and about 70 acres of tomatoes and sweet corn have been put out this year to fill contracts for canned goods.

When the main orchard comes into bearing our fruit will be marketed, attractively packed, direct to retail dealers and large consumers, THROUGH OUR OWN AGENT IN NEW YORK, independent of commission men. In the meantime the Canning Plant will pay better than ordinary interest on the entire investment. THIS YEAR NET EARNINGS SHOULD EXCEED 12% AND SHOULD INCREASE SUBSTANTIALLY EACH YEAR.

For further details, or personal interview by appointment, address J. O. BRUBAKER, Secretary, Saugerties, N. Y.

## LITIGATION BEGINS IN BARLEY ESTATE

With the filing of a lis pendens and complaint in the county clerk's office today, a double headed law suit was gotten under way.

On June first, Edward Barley, of the town of Rochester, brought an action for the partition or sale of real estate owned by his father, the late Josephus Barley, at the time of his death. Kelly & Connelly, a firm of New York attorneys, represented him.

Jane A. Dunn, one of the daughters of Josephus Barley, retained Judge Jenkins, and in her answer she sets forth that shortly before her father's death he gave deeds for three pieces of property to his three sons, Edward, Albert and DeWitt Barley. At the time of giving these deeds, Mrs. Dunn claims, her father was incompetent to make a deed, thereby leaving the title in him at the time of his death, and she therefore asks that not only the property described in her brother's complaint be sold but that in addition the three properties which he attempted to deed away just before his death shall also be included in the partition.

### St. Mary's School Exercises.

Wednesday afternoon the closing exercises of St. Mary's parochial school were held in the new school building and an exceptionally fine program was given by the young folks. One of the best things on the program was the minstrel show. The interlocutor was Joseph McDermott and the end men were William Dwyer, Francis Scully, Lawrence Scanlon and John Redican. "Is the master of the house in?" inquired the smooth tongued book agent of the little boy who answered his ring. "Nope," said the boy. "Little boys should not tell falsehoods," said the book agent. "Isn't that your father reading the newspaper there by the window?" "Yep," was the answer; "that's pa, all right, but ma is out."

### ASHOKAN CHURCH SOCIAL.

Delightful Evening Enjoyed by a Large Number of Persons.

Ashokan, June 25.—The ladies of the Reformed Dutch Church held a successful sale and social at the church on Wednesday evening. There was a large attendance and the sultry weather assured an active demand for the good things provided. Fresh fruit punch was drawn from an artistically arranged well fitted with an old fashioned sweep, and the wooden curb was daintily festooned with Virginia creeper, and a base of moss covered stones completed the natural effect. The well ran dry half a dozen times during the evening, but each time a new vein was immediately struck and gratefully moistened parched throats. The entire booth where the well was situated was banked with sweet fern, the odor of which one noted as soon as he entered the church.

The candy counter, which was well supplied with home made sweets, was trimmed with white and pink crepe paper and the brisk trade carried on there attested the popularity of home made candy over the manufactured article. On either side were booths in white and yellow, where fancy goods were sold and these vied with each other and with the candy booth for first place in the evening's activities. Dainty aprons, home made rugs, and a good assortment of other fancy and useful articles tastefully arranged made this end of the hall a busy place for the ladies.

Refreshments, consisting of all kinds of sandwiches, cake, strawberries, ice cream, tea and coffee, gave assurance to all that even the most voracious appetite could be appeased there. A dozen tables, each seating four persons, covered with pretty crepe paper luncheon sets, accommodated the guests there, and from 5 to 9 o'clock the ladies were kept busy. Daintily prepared menu cards decorated with autumn leaves, violets and wild roses, added to the attractiveness of the tables. At 9:30 o'clock the remaining cakes, sandwiches, etc., were auctioned off, and the active bidding furnished proof of the high regard in which the refreshments were held by those who were fortunate enough to attend the social.

### Bicycle Trip to Boat Races.

The Y. M. C. A. boys are planning a bicycle trip to the university boat races to be held at Poughkeepsie on Friday, June 26. A. at 11:30 for Rondout, where they will cross the river on the 11:50 ferry for Rhinecliff. After wheeling to Poughkeepsie they will cross the river again for Highland. The boys expect to return by train after the races.

Thayer received a dose and died, also the Boston bull dog of Mrs. Charles Bleber is dead. An offer of \$25 reward for information leading to the arrest of guilty parties has been posted for Dr. W. N. Thayer's dog.

Vernon Porter, a deserter of the United States navy, was taken to Brooklyn Wednesday morning by Deputy Sheriff Frank Wilhelm. A surprise party was given to Christie Black on Tuesday evening. About 20 couples were present and they report a fine time.

A new barber has been engaged at Shanley's Hotel for the summer. Pulp mill has closed down for repairs, laying off all their men except two.

Mr. Jones of Kingston, N. Y., is the Shanley Hotel's new chauffeur. A skimmington was given to Mr. and Mrs. H. Mason on Monday night on their return home from their wedding trip.

### Sunday School League.

The third meeting of the Sunday school league was held at the Y. M. C. A. Wednesday afternoon at 4 p. m. The report of the games played last week showed the following results: Church of the Redeemer against Trinity M. E. Score 15 to 3. The game was thrown out as no official score was turned in.

The St. James against the First Dutch Reformed. Score 16 to 1 in favor of the St. James. A protest was made against Liebolt, who has not had 75 per cent in monthly attendance. This will be investigated.

Clinton Avenue M. E. against Fair Street Reformed. Score 9 to 0 in favor of the Clinton Avenue M. E. Forfeited game.

The Sunday schools eligible to play games having paid their one dollar up to date are as follows: Church of the Redeemer, Trinity M. E., St. James M. E., First Dutch Reformed, Fair Street Reformed, Clinton Avenue and the Albany Baptist. The schedule for next week is as follows: Monday, June 29, Albany Avenue against Clinton Avenue M. E. on the Andrew street grounds. Wednesday, July 1, Church of the Redeemer vs. St. James M. E. on the Andrew street grounds. Friday, July 3, Trinity M. E. vs. the First Dutch on the Andrew street grounds.

It was decided to change the time of playing as follows: Games schedule 6:15 if teams are present if not the game will be called at 6:25 p. m. instead of the old schedule which was 4:30 p. m. as heretofore.

The meeting was adjourned to meet next Tuesday, June 30; meeting called at 8 p. m. Next week the schedule will be arranged for the summer. Any team who has not a representative at the next meeting with the fee of one dollar will be omitted from the league.

## EARLY CLOSING AFTER JULY 4

The uptown merchants have finally decided that they will close their stores at five o'clock, on all afternoons except Saturday after July 4. Some of the larger merchants have been trying for a long time to persuade all of the stores to not only close an hour earlier week days, but to give their employees a half day on Saturdays, closing at one o'clock. This plan could not be carried out as many of the smaller stores say that most of their business is done on Saturday afternoon and evening, and for that reason, they have refused. This plan is carried out in many of the large New York stores and very little difference is noticed as the clerks work with greater activity during the week and business does not seem to decrease. At any rate the people employed in the uptown stores will gladly welcome the one hour a day.

### Inexhaustible Rome.

"Rome is wonderful," said a man familiar with the historic city. "Rome is inexhaustible. There is a story that describes Rome well.

"The pope was giving audience. He said to a lady in black:

"How long have you been in Rome?"

"Three weeks," the lady answered.

"Ah," said the pope, "then you have seen Rome?"

"And he turned to an American merchant and asked:

"And you, sir, how long have you been in Rome?"

"Three months," the American replied.

"You, then, have begun to see Rome," said the pope. And he next favored an elegant woman with gray hair.

"How long, madam," he asked, "have you been here?"

"Three years," the woman answered.

"The pope smiled faintly.

"You," he said, "have not yet begun to see Rome."—New York Herald.

### Our True Moles.

In this country there are five recognized groups of true moles, two of which are confined to the Pacific coast and the other three are distributed over the section east of the one hundredth meridian extending from Canada to the gulf of Mexico. In the latter districts and in the greater part of Pennsylvania, New York and New England the common mole occurs with the star nosed mole and Brewer's mole. The mole is so seldom seen even by those who are familiar with its work that it is often confused with other small creatures, particularly the shrew, the mole or meadow mouse and the pocket gopher. However, it can be readily distinguished by its stout, short front limbs ending in broad, rounded bands with palms turned outward. It has a rather elongated body, close, pluishlike fur, a pointed snout and a short tail. Neither eyes nor ears are in evidence. It is a creature of strict subterranean habits.

## LITIGATION BEGINS IN BARLEY ESTATE

With the filing of a lis pendens and complaint in the county clerk's office today, a double headed law suit was gotten under way.

On June first, Edward Barley, of the town of Rochester, brought an action for the partition or sale of real estate owned by his father, the late Josephus Barley, at the time of his death. Kelly & Connelly, a firm of New York attorneys, represented him.

Jane A. Dunn, one of the daughters of Josephus Barley, retained Judge Jenkins, and in her answer she sets forth that shortly before her father's death he gave deeds for three pieces of property to his three sons, Edward, Albert and DeWitt Barley. At the time of giving these deeds, Mrs. Dunn claims, her father was incompetent to make a deed, thereby leaving the title in him at the time of his death, and she therefore asks that not only the property described in her brother's complaint be sold but that in addition the three properties which he attempted to deed away just before his death shall also be included in the partition.

"Isn't that your father reading the newspaper there by the window?" "Yep," was the answer; "that's pa, all right, but ma is out."

### ASHOKAN CHURCH SOCIAL.

Delightful Evening Enjoyed by a Large Number of Persons.

Ashokan, June 25.—The ladies of the Reformed Dutch Church held a successful sale and social at the church on Wednesday evening. There was a large attendance and the sultry weather assured an active demand for the good things provided. Fresh fruit punch was drawn from an artistically arranged well fitted with an old fashioned sweep, and the wooden curb was daintily festooned with Virginia creeper, and a base of moss covered stones completed the natural effect. The well ran dry half a dozen times during the evening, but each time a new vein was immediately struck and gratefully moistened parched throats. The entire booth where the well was situated was banked with sweet fern, the odor of which one noted as soon as he entered the church.

The candy counter, which was well supplied with home made sweets, was trimmed with white and pink crepe paper and the brisk trade carried on there attested the popularity of home made candy over the manufactured article. On either side were booths in white and yellow, where fancy goods were sold and these vied with each other and with the candy booth for first place in the evening's activities. Dainty aprons, home made rugs, and a good assortment of other fancy and useful articles tastefully arranged made this end of the hall a busy place for the ladies. Refreshments consisting of all kinds of sandwiches, cake, strawberries, ice cream, tea and coffee, gave assurance to all that even the most voracious appetite could be appeased there. A dozen tables, each seating four persons, covered with pretty crepe paper luncheon sets, accommodated the guests there, and from 5 to 9 o'clock the ladies were kept busy. Daintily prepared menu cards decorated with autumn leaves, violets and wild roses, added to the attractiveness of the tables. At 9:30 o'clock the remaining cakes, sandwiches, etc., were auctioned off, and the active bidding furnished proof of the high regard in which the refreshments were held by those who were fortunate enough to attend the social.

### Bicycle Trip to Boat Races.

The Y. M. C. A. boys are planning a bicycle trip to the university boat races to be held at Poughkeepsie on Friday, June 26. A. at 11:30 for Rondout, where they will cross the river on the 11:50 ferry for Rhinecliff. After wheeling to Poughkeepsie they will cross the river again for Highland. The boys expect to return by train after the races.

Thayer's dog.

A new barber has been engaged at Shanley's Hotel for the summer.

### Sunday School League.

The third meeting of the Sunday school league was held at the Y. M. C. A. Wednesday afternoon at 4 p. m. The report of the games played last week showed the following results:

Church of the Redeemer against Trinity M. E. Score 15 to 3. The game was thrown out as no official score was turned in.

The St. James against the First Dutch Reformed. Score 16 to 1 in favor of the St. James. A protest was made against Liebolt, who has not had 75 per cent in monthly attendance. This will be investigated.

Clinton Avenue M. E. against Fair Street Reformed. Score 9 to 0 in favor of the Clinton Avenue M. E. Forfeited game.

The Sunday schools eligible to play games having paid their one dollar up to date are as follows: Church of the Redeemer, Trinity M. E., St. James M. E., First Dutch Reformed, Fair Street Reformed, Clinton Avenue and the Albany Baptist.

The schedule for next week is as follows: Monday, June 29, Albany Avenue against Clinton Avenue M. E. on the Andrew street grounds. Wednesday, July 1, Church of the Redeemer vs. St. James M. E. on the Andrew street grounds. Friday, July 3, Trinity M. E. vs. the First Dutch on the Andrew street grounds.

It was decided to change the time of playing as follows: Games schedule 6:15 if teams are present if not the game will be called at 6:25 p. m. instead of the old schedule which was 4:30 p. m. as heretofore.

The meeting was adjourned to meet next Tuesday, June 30; meeting called at 8 p. m. Next week the schedule will be arranged for the summer. Any team who has not a representative at the next meeting with the fee of one dollar will be omitted from the league.

## EARLY CLOSING AFTER JULY 4

The uptown merchants have finally decided that they will close their stores at five o'clock, on all afternoons except Saturday after July 4. Some of the larger merchants have been trying for a long time to persuade all of the stores to not only close an hour earlier week days, but to give their employees a half day on Saturdays, closing at one o'clock. This plan could not be carried out as many of the smaller stores say that most of their business is done on Saturday afternoon and evening, and for that reason, they have refused.

This plan is carried out in many of the large New York stores and very little difference is noticed as the clerks work with greater activity during the week and business does not seem to decrease. At any rate the people employed in the uptown stores will gladly welcome the one hour a day.

### Inexhaustible Rome.

"Rome is wonderful," said a man in military with the historic city. "Rome is inexhaustible. There is a story that describes Rome well.

"The pope was giving audience. He said to a lady in black:

"How long have you been in Rome?" "Three weeks," the lady answered.

"Ah," said the pope, "then you have seen Rome?"

"And he turned to an American merchant and asked:

"And you, sir, how long have you been in Rome?"

"Three months," the American replied.

"You, then, have begun to see Rome," said the pope. And he next accented an elegant woman with gray hair.

"How long, madam," he asked, "have you been here?"

"Three years," the woman answered. "The pope smiled faintly.

"You," he said, "have not yet begun to see Rome."—New York Herald.

### Our True Mole.

In this country there are five recognized groups of true moles, two of which are confined to the Pacific coast and the other three are distributed over the section east of the one hundredth meridian extending from Canada to the gulf of Mexico. In the latter districts and in the greater part of Pennsylvania, New York and New England the common mole occurs with the star nosed mole and Brewer's mole.

The mole is so seldom seen even by those who are familiar with its work that it is often confused with other small creatures, particularly the shrew, the mole or meadow mouse and the pocket gopher. However, it can be readily distinguished by its stout, short front limbs ending in broad, rounded hands with palms turned outward. It has a rather elongated body, close, pluishlike fur, a pointed snout and a short tail. Neither eyes nor ears are in evidence. It is a creature of strict subterranean habits.

## GREAT PHOTO-DRAMA COMES TO KINGSTON

Through an unexpected and fortunate chain of circumstances, the famous photo drama of Creation will come to Kingston and will exhibit free of charge in the Kingston opera house for sixteen days, under the joint auspices of the International Bible Students' Association and the Chamber of Commerce.

The photo drama of Creation consists of moving pictures and lantern slides. It is given in four parts and a finale. Two parts will be given for three days each; two of the parts for four days each, and the finale will be given in one day. Two performances, at 3 o'clock in the afternoon and at 8 o'clock in the evening, will be given daily. The first production will be given on Sunday afternoon.

In all the large cities of the United States the photo drama of Creation has been showing for more than a year, and up to this time no city of less than 100,000 population has been afforded the opportunity of witnessing the pictures. Everywhere the pictures have been shown free of charge. How this can be done is a question that remains unanswered, except by the explanation that the International Bible Students' Association has given the public the benefit of many other up-to-date and interesting attractions. Usually each one of the four parts of the photo-drama is exhibited for a week, and the photo-drama is now being shown at Asbury Park. On account of a conflict of dates and the fact that the large auditoriums in several big cities are engaged for the next few weeks for convention purposes, the famous pictures are enabled to be shown here.

While the pictorial representation of the Creation is divided into four parts, each part is complete in itself, and together they comprehend the work of the seven great creative days. Each of the 572 stereoscopic slides used is in itself artistic. The 18,000 feet of films contain reels costing from \$6,000 to \$8,000 each and have been pronounced the choicest ever thrown on canvas. Many of the illustrations thus treated had for their background and setting the very spots in Egypt and Palestine where the original was enacted. The photo-drama takes in the entire scope of human history and the drama traces human history to the present time.

All seats are free. Under the customary arrangements adopted for large cities, tickets for preferred seats will be issued which entitle the holder to the reserved section until within a short time before the photo-drama opens, when all seats become free. Announcement regarding the distribution of these tickets will be made later.

The dates on which the photo-drama of Creation will be given are as follows:

Part 1—June 28, 29, 30.  
Part 2—July 1, 2, 3, 4.  
Part 3—July 5, 6, 7.  
Part 4—July 8, 9, 10, 11.  
Finale—July 12.

### Outing at Mamakating Inn.

The Men's Bible Class and Consistory of the Fair Street Reformed Church were the guests of J. Irving Goddard Wednesday at his famous summer resort at Mamakating, known as Mamakating Inn. The party consisting of about thirty men started in the morning in automobiles and enjoyed the entire day at this beautiful summer resort. Mamakating at first was a colony of people who came there yearly and occupied the twenty or more cottages that were built. The people did not eat at their cottages and so the large Mamakating Inn was built especially for the dining house, but as more people came it was used also as a regular resort, until now it is one of the famous summer places in the state and the beautiful scenery and pure mountain air is enjoyed by many people from every part of the state.

The photo drama of Creation consists of moving pictures and lantern slides. It is given in four parts and a finale. Two parts will be given for three days each; two of the parts for four days each, and the finale will be given in one day. Two performances, at 3 o'clock in the afternoon and at 8 o'clock in the evening, will be given daily. The first production will be given on Sunday afternoon.

In all the large cities of the United States the photo drama of Creation has been showing for more than a year, and up to this time no city of less than 100,000 population has been afforded the opportunity of witnessing the pictures. Everywhere the pictures have been shown free of charge. How this can be done is a question that remains unanswered, except by the explanation that the International Bible Students' Association has given the public the benefit of many other up-to-date and interesting attractions. Usually each one of the four parts of the photo-drama is exhibited for a week, and the photo-drama is now being shown at Asbury Park. On account of a conflict of dates and the fact that the large auditoriums in several big cities are engaged for the next few weeks for convention purposes, the famous pictures are enabled to be shown here.

While the pictorial representation of the Creation is divided into four parts, each part is complete in itself, and together they comprehend the work of the seven great creative days. Each of the 572 stereopticon slides used is in itself artistic. The 18,000 feet of film contain reels costing from \$8,000 to \$8,000 each and have been pronounced the choicest ever thrown on canvas. Many of the illustrations thus treated had for their background and setting the very spots in Egypt and Palestine where the original was enacted. The photo-drama takes in the entire scope of human history and the drama traces human history to the present time.

All seats are free. Under the customary arrangements adopted for large cities, tickets for preferred seats will be issued which entitle the holder to the reserved section until within a short time before the photo-drama opens, when all seats become free. Announcement regarding the distribution of these tickets will be made later.

The dates on which the photo-drama of Creation will be given are as follows:

Part 1—June 28, 29, 30.  
Part 2—July 1, 2, 3, 4.  
Part 3—July 5, 6, 7.  
Part 4—July 8, 9, 10, 11.  
Finale—July 12.

### Outing at Mamakating Inn.

The Men's Bible Class and Con-sistory of the Fair Street Reformed Church were the guests of J. Irving Goddard Wednesday at his famous summer resort at Mamakating, known as Mamakating Inn. The party consisting of about thirty men started in the morning in automobiles and enjoyed the entire day at this beautiful summer resort. Mamakating at first was a colony of people who came there yearly and occupied the twenty or more cottages that were built. The people did not eat at their cottages and so the large Mamakating Inn was built especially for the dining house, but as more people came it was used also as a regular resort, until now it is one of the famous summer places in the state and the beautiful scenery and pure mountain air is enjoyed by many people from every part of the state.

## FINANCIAL AND COMMERCIAL

By Telegraph to The Freeman.

New York, June 25.—The failure of the H. B. Claflin Company and the appointment of a receiver for the Defender Manufacturing Company has a depressing effect upon the stock market today. Nearly all stocks were lower. United Dry Goods preferred opened at 70 against 82 at the close of business yesterday.

This concern has holdings in the Claflin stocks. The H. B. Claflin Company, which owns gold and silver mines and goods manufacturing plants, is one of the biggest factors in the commercial life of the U. S. Amalgamated Copper and other stocks in which there is a strong speculative interest, were lower in sympathy. Amalgamated Copper declined one point, U. S. Steel common declined 1/2. Lehigh Valley lost 3/4 on its first transaction. New York, New Haven & Hartford opened at 64 1/4 for a loss of 1/4 and immediately went to 64. Chesapeake & Ohio began 3/4 lower but within fifteen minutes made a partial recovery. Union Pacific was 3/4 lower at the beginning but soon received support. There was a similar movement in Reading, which opened 3/4 lower. Among the other declines were: Westinghouse, 3/4; Utah Copper, 1/4; Southern Pacific, 1-5/8; Pennsylvania, 3/4; Northern Pacific, 1/4; New York Central, 1/4; Great Northern Preferred, 3/4; Baltimore & Ohio, 1/4; American Can, 1/4; American Gas Preferred, 1/4; Canadian Pacific, 1/4 and Chino Copper, 3/4. The tone of the market was weak. The curb was heavy. Canadian Pacific in London was off.

2:30 p. m.—Trading became brisker in the last hour and large blocks were dumped on the market causing declines. United States Steel Common dropped to 58 1/2 for a net loss of 1 1/2 on the day. Canadian Pacific lost 1/2 from its noon level selling around 192. Reading held around 161 against 162 1/2 at the close last night. Southern Pacific and Union Pacific were both under pressure the latter losing 1 1/2 from its noon range and the former 1 1/2. The tone was weak.

The stock market closed dull; governments unchanged, other bonds steady.

#### Hahn-Gulnick.

George A. Hahn, Jr., and Miss Bessie A. Gulnick were quietly married on Wednesday afternoon at 5 o'clock at the home of the bride, 61 O'Neill street, by the Rev. H. E. Snyder, pastor of the Evangelical Lutheran Church of the Redeemer, in the presence of only the immediate relatives. The bride was attended by her sister, Miss Irene Gulnick, and the best man was John Hahn, brother of the groom. After a wedding trip Mr. and Mrs. Hahn will reside in Schenectady, where a furnished flat awaits them.

#### Hasselmann-Snyder.

Louis E. Snyder and Miss Alma Hasselmann, both of this city, were married yesterday afternoon at 3 o'clock at the Spring Street German Lutheran Church by the Rev. A. Schmidt. The bride was attended by her sister, Miss Tillie Hasselmann and the groom by Richard Morsehead. After the ceremony a bountiful supper was served at the home of the bride and many guests were present. Mr. and Mrs. Snyder left on their wedding trip for Connecticut.

#### Winne-Young.

On Wednesday, June 24, promptly at noon, Miss Myrtle Young, formerly a teacher in Kingston Academy, was quietly married to Harry Bonesteel Winne of Kingston. The wedding took place at the residence of the bride's parents, Mr. and Mrs. George L. Young, at Malden, Mass., and the ceremony was performed by the Rev. Arthur S. Cole, pastor of the Albany Avenue Baptist Church. The bride was charmingly attired in a gown of white tulle and carried a bouquet of sweet peas. Mr. and Mrs. Winne will take an extensive wedding trip and will be at home at 185 Main street, Kingston, N. Y., after October 1.

#### Arnold-Barley.

A very pretty home wedding was celebrated at the home of Gilbert E. Barley, 152 O'Neill street, on Wednesday afternoon at 5 o'clock, when his daughter, Miss Ida M. Barley and Albert A. Arnold of Copaque, Long Island, were united in marriage by the Rev. Charles G. Ellis, pastor of the Rondout Presbyterian Church. The bridesmaid was Miss Mary Hamilton of this city and the best man was Harry F. Legg of New York city. The bride was charmingly gowned in white crepe de chine and wore a veil of shadow lace and carried a bouquet of lilies of the valley and bridal roses. The bridesmaid was gowned in pink crepe de chine and carried pink roses. After the ceremony a wedding supper was served to which Mrs. Daly catered. The bride was the recipient of many handsome and useful gifts. After a wedding trip Mr. and Mrs. Arnold will reside at Copaque, Long Island, where Mr. Arnold is practicing law.

#### Brooks-Smedes.

Owing to the fact that he did not thoroughly understand the law regarding the issuing of marriage licenses the marriage of Louis J. Brooks, formerly of this city, now of Beacon City, to Miss Grace A. Smedes of 129 Prospect street, was delayed several hours. The wedding was to have taken place Wednesday afternoon at the home of Jesse Rylea in Newburgh, and the young couple went to that city this morning and to the city hall to obtain the necessary license but when the bride gave her address City Clerk Coutant declined to issue the license and told the couple that they would have to secure it in Kingston. Nothing daunted the couple made a hasty trip to this city and secured the necessary license from City Clerk Cummings and then made a hurried trip back to Newburgh where the ceremony was performed that evening. Mr. Brooks is well known in this city and is a member of the Spanish War Veterans.

#### Stratton-Black.

Miss Alida Black, daughter of Mrs. James Black, of Wilbur, and Louis Stratton were quietly married at the rectory of the Holy Name Church in Wilbur on Wednesday afternoon at three o'clock, the Rev. Father Prendergast performing the ceremony. The bride was handsomely gowned in white crepe de chine and carried white roses. Her one ornament was a sunburst pin, the gift of the groom. She was attended by Miss Katherine Shirick, as maid of honor, who was charmingly attired in pink crepe de chine and carried pink roses. Raymond Coughlin, a cousin of the bride, acted as best man. Following the ceremony a wedding dinner was enjoyed by the bridal party at the home of the bride, the house being attractively decorated with June roses. There were many elegant and costly gifts including cheques. The bride's gift to her bridesmaid was a pretty lavalliere, while the groom presented the best man with a pearl and gold scarf pin. Following a wedding trip to Washington, Mr. and Mrs. Stratton will make their temporary home in Wilbur. Mr. Stratton is an engineer on the Ulster and Delaware railroad.

Miss Helen Stephan acted as toastmaster. Miss Ormerod described her work in domestic science as studied at Pratt Institute. Miss Cook spoke on "Good Fellowship," especially as shown in the P. V. P. Club. Miss Margaret McNellis delighted all with a vocal solo and Miss Parker's toast was "The Best of Our Ability." Miss Parker closed her appreciated remarks with the poem "The World's All Right." While the organization of this club had in mind the promotion of good fellowship the social side was not over-estimated, for high scholarship has always been an essential attainment for membership. It has been a most successful organization thus far, as is shown by its membership roll of seventy young women, made up of alumni and active members, all of whom consider belonging to the P. V. P. as one of their real privileges in life. During the evening there was excellent piano music by Mr. Maisenhelder, who also played for dancing which followed the banquet.

## MENKE'S DAILY SPORTS REVIEW

(By Frank G. Menke.)

New York, June 25.—Jim Mitchell, of our town, and one of the greatest weight heavers that ever did any heaving, almost fought a duel once. It happened in Stockholm, Sweden, back in 1912, and the nearly facts have just come to light.

Jim, who is a trifle larger than the Woolworth building, went over with the American contingent for the purpose of "covering" the contests for one of the American papers. Among Jim's duties was snapshotting any important incidents of the doings.

It so happened that one afternoon Jim, who was in the second row in the grandstand, wanted to get a picture of the King of Sweden. An excited little Frenchman had the seat just in front of the huge Mitchell and every time that Mitchell got the kingly form right in focus the Frenchman would bob back and forth and spoil the sight.

Mitchell endured the bobbing process in patience for more than a minute, and then, exasperated, he reached out with his huge left arm, picked the little Frenchman off his feet and tucked Frenchie in the hollow of left arm. Holding him this way with one arm, Mitchell was able to train the camera with his other hand and snap the king just as he was passing out of focus.

The picture taken, Mitchell extricated the Frenchman from under his arm and dropped him back into his seat. The Frenchman, without a word, scampered away from his seat and out of the stands. About 20 minutes later another Frenchman came along, sought out Mitchell, and shoved a card at him.

"What's this?" thundered Mitchell, fingering the pasteboard which bore a French name.

"Eet ees zee name of zee gentleman you have insulted," replied the Frenchman. "His honaire has been insulted. He challenge zee to zee duel."

"Say, you don't mean that little jumping jack that sat in front of me, do you?" asked Mitchell, not being sure of the identity of the person whom he was supposed to have insulted.

"I mean, sir, zee grand gentleman who sat in zee seat in the front of zee. I say, hees honor has been insulted and you shall pay in zee duel."

"Oh, that's who you mean, eh," grinned Mitchell. "That little geezer. Say, are you his second?"

"I have zee great honaire, sir."

"Well, lookit here," said Mitchell. "I don't know much about this here duelling business—that is, the rules of the game. Tell me, who chooses the weapons?"

"Zee gentleman who ees is challenged makes zee choice," replied the Frenchman. "Een thees case, sir, you shall choose. Name zee weapons sir, name zee weapons."

Mitchell stretched himself to his full height first, expanded his enormous chest, and then, leaning almost half way over so that he could get his lips close to the Frenchman's ear, he bellowed:

"Battle axes—battle axes, I choose battle axes, you little frog-eater. Do we duel?"

"They didn't."

John K. Tener, the National League prexy, seems to have hit on a splendid little plan for abolishing rowdism on the field. Tener, in a letter to all league presidents, suggested that they "dock" all the players during the time of their suspension.

If Tener's scheme is put into use it surely will do much to eliminate rowdism. In the past, when players were suspended, they continued to draw their salaries. But if the owners decide not to pay them while they are in forced retirement, it's something of a cinch that the players will curb their tongues and remain in the game.

While on the subject of rowdism one might remark that another of the predictions of organized baseball, concerning the Federal League, has failed to come true.

Before the present season opened the O. B. persons declared that the Federal teams were composed mostly of rowdies who never could remain in the game for more than a week at a time. They predicted that the Fed game would be so rowdyish that the fans would become disgusted.

However, up to the present fewer Federal League players have been chased from the game so far this season than players in either the American or National Leagues.

## Carls Millinery Department.

The busiest month of June this department ever saw. There is no other reason only that we have had what the people wanted. Almost every day has brought us new customers who say we like your efficient service. You seem to make a business of millinery the same as in the other departments. This talk is always pleasing. Just now all are wondering at our prices. You can't pick up a hat (except it be a Panama) that is not reduced far below the actual cost to make it. Our Panama prices are the talk of the whole city and county. \$1.97, \$2.97 and for \$3.50 a genuine South American \$5 Panama, one you can roll up and put in your suit case. We also have trimmed Panamas, mid summer styles, all white, newest trimming of wings, ribbon bows and flowers. ## OUR DAILY PATTERN.

## 9938.—A Charming Negligee. Ladies' Dressing or Morning Sacque.

Every woman enjoys the comfort of a pretty house sacque, which has a very practical place in her wardrobe. The design here shown is picturesque but simple to make. The model is cut with slashes in front and back, suggesting a butterfly shape. It will develop effectively in soft light weight wool fabrics, or chambray lawn, batiste, or silk, with trimming of lace or ribbon. The pattern is cut in 3 sizes: small, medium and large, and requires 2½ yards of 24 inch material for a medium size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

Catalogue Notice.  
Send 10 cents in silver or stamps for our up-to-date 1914 Spring and Summer Catalogue, containing over 400 designs of Ladies', Misses' and Children's Patterns; also a concise and comprehensive article on dressmaking, giving valuable hints to the home dressmaker.

## MENKE'S DAILY SPORTS REVIEW

(By Frank G. Menke.)

New York, June 25.—Jim Mitchell, of our town, and one of the greatest weight heavers that ever did any heaving, almost fought a duel once. It happened in Stockholm, Sweden, back in 1912, and the nifty facts have just come to light. Jim, who is a trifle larger than the Woolworth building, went over with the American contingent for the purpose of "covering" the contests for one of the American papers. Among Jim's duties was snapshooting any important incidents of the doings.

It so happened that one afternoon Jim, who was in the second row in the grandstand, wanted to get a picture of the King of Sweden. An excited little Frenchman had the seat just in front of the huge Mitchell and every time that Mitchell got the kingly form right in focus the Frenchman would bob back and forth and spoil the sight.

Mitchell endured the bobbing process in patience for more than a minute, and then, exasperated, he reached out with his huge left arm, picked the little Frenchman off his feet and tucked Frenchie in the hollow of left arm. Holding him this way with one arm, Mitchell was able to train the camera with his other hand and snap the king just as he was passing out of focus.

The picture taken, Mitchell extricated the Frenchman from under his arm and dropped him back into his seat. The Frenchman, without a word, scampered away from his seat and out of the stands. About 20 minutes later another Frenchman came along, sought out Mitchell, and showed a card at him.

"What's this?" thundered Mitchell, fingering the pasteboard which bore a French name.

"Eet ees zee name of zee gentleman you have insulted," replied the Frenchman. "His honaire has been insulted. He challenge zee to zee duel."

"Say, you don't mean that little jumping jack that sat in front of me, do you?" asked Mitchell, not being sure of the identity of the person whom he was supposed to have insulted.

"I mean, sir, zee grand gentleman who sat in zee seat in the front of zee. I say, hees honor has been insulted and you shall pay in zee duel."

"Oh, that's who you mean, eh," grinned Mitchell. "That little geezer. Say, are you his second?"

"I have zee great honaire, sir."

"Well, lookit here," said Mitchell. "I don't know much about this here duelling business—that is, the rules of the game. Tell me, who chooses the weapons?"

"Zee gentleman who ees is challenged makes zee choice," replied the Frenchman. "Een thees case, sir, you shall choose. Name zee weapons sir, name zee weapons."

Mitchell stretched himself to his full height first, expanded his enormous chest, and then, leaning almost half way over so that he could get his lips close to the Frenchman's ear, he belted:

"Battle axes—battle axes, I choose battle axes, you little frog-eater. Do we duel?"

"They didn't."

John K. Tener, the National League presy, seems to have hit on a splendid little plan for abolishing rowdism on the field. Tener, in a letter to all league presidents, suggested that they "dock" all the players during the time of their suspension.

If Tener's scheme is put into use it surely will do much to eliminate rowdism. In the past, when players were suspended, they continued to draw their salaries. But if the owners decide not to pay them while they are in forced retirement, it's something of a cinch that the players will curb their tongues and remain in the game.

While on the subject of rowdism one might remark that another of the predictions of organized baseball, concerning the Federal League, has failed to come true.

Before the present season opened the O. B. persons declared that the Federal League was composed mostly of rowdies who never could remain in the game for more than a week at a time. They predicted that the Fed game would be so rowdyish that the fans would become disgusted.

However, up to the present fewer Federal League players have been chased from the game so far this season than players in either the American or National Leagues.

Our Panama prices are the talk of the whole city and county. \$1.97, \$2.97 and for \$3.50 a genuine South American \$5 Panama, one you can roll up and put in your suit case. We also have trimmed Panamas, mid summer styles, all white, newest trimming of wings, ribbon bows and flowers. 9938.—A Charming Negligee. Ladies' Dressing or Morning Sacque.

Every woman enjoys the comfort of a pretty house sacque, which has a very practical place in her wardrobe. The design here shown is picturesque but simple to make. The model is cut with slashes in front and back, suggesting a butterfly shape. It will develop effectively in soft light weight wool fabrics, or chambray lawn, batiste, or silk, with trimming of lace or ribbon. The pattern is cut in 3 sizes: small, medium and large, and requires 2½ yards of 24 inch material for a medium size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

Catalogue Notice.  
Send 10 cents in silver or stamps for our up-to-date 1914 Spring and Summer Catalogue, containing over 400 designs of Ladies' Misses' and Children's Patterns; also a concise and comprehensive article on dressmaking, giving valuable hints to the home dressmaker.
